To Whom It May Concern:

We just completed an installation using the Abaco Decking material with the hidden fastener system. We used both the smooth and anti-slip profiles in the deck and step installation. It is truly a beautiful product and the quality is incredible.

Shoreline Lumber did a great job in the sales of the product; providing accurate information and samples.

Aljoma Lumber, Inc. did a great job in providing additional support and knowledge in the installation process.

We are glad to be able to provide a quality product and installation to our client that will have a lasting value to their home and their quality of life.

Sincerely,

**Tom Lawrence**
